

DONATIONS AND SUPPORT

We appreciate more than ever the long-time support of our donors and stakeholders. Though we are currently unable to accept any in-kind donations, we welcome and request your financial support.

Just this week we canceled our 40th Anniversary Spring Gala, our largest fundraiser of the year. We will need to replace the lost revenue from this event; domestic violence continues despite health threats and social distancing.

Forcing abusers and victims to stay home and avoid public space can negatively impact survivors and create circumstances where their safety is further compromised. Please consider giving generously to Hope's Door so that we may continue to provide safety planning and guide victims to safety, independence and healing from the trauma of abuse during this most challenging time.

OUR HOTLINE AND SHELTER REMAIN OPEN DESPITE COVID-19

For many survivors, staying home with their abusers may not be safe. For anyone who needs support, we are here for you, 24/7. Call our HOTLINE 1-888-438-8700. If you are unable to speak safely, you can reach us via email at info@hopesdoorny.org – we can either call you back at a phone number and time you provide, or help you with safety planning via email.

All of our counselors and attorneys are working remotely and are providing services virtually or by phone. Our shelter is currently full yet remains fully operational, and our hotline remains the way to reach us 24/7.

We appreciate your patience during this challenging time as we attempt to maintain highest quality services and at the same time, avoid public spaces and work remotely.
